Symbols and other usages

The following standard symbols are used in publications of the Tasmanian Office of the Bureau:

ASIC	Australian Standard Industrial Classification
M	males
F	females
P	persons
n.a.	not available
n.e.c.	not elsewhere classified
n.e.i.	not elsewhere included
n.p.	not available for separate publication, but included in totals where applicable
n.y.a.	not yet available
p	preliminary — figure or series subject to revision
r	figure or series revised since previous issue
s	subject to sampling variability too high for most practical purposes
..	not applicable
—	nil or rounded to zero
—	break in continuity of series (where a line is drawn between two consecutive figures in the same column, or alongside two or more figures in consecutive columns)
(M)	Municipality
(C)	City

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

Values are shown in Australian currency.

Commentary

Definitions

Trend series estimates are used to "smooth" data to enable longer term trends to become more noticeable. They are the preferred series to use when making a comparison over time, e.g. 12 months.

Original series estimates (or unadjusted estimates) are the survey data as collected, generalised to the relevant population. These estimates have not been seasonally adjusted or trend adjusted ("smoothed").

Employment

States' trend series comparisons—

The Australian and State *trend series* comparisons are given on page 24. There was an increase of 3.0% in Tasmania's employment over the year to June 1995. The largest percentage increase in employment was in Queensland (6.2%). The next highest percentage increase in employment was in Western Australia (5.6%), followed by Victoria (4.6%) and NSW (4.1%). South Australia had an increase in employment of 2.0%.

Regional Tasmania's original series figures—

In the Hobart and Southern Statistical Division the estimate of *unadjusted* employment increased by 3,200 between June 1994 and June 1995 to 101,700. Employment in the Northern Statistical Division increased by 1,900 between June 1994 and June 1995 to 54,200. The estimate of employment in the Mersey-Lyell Statistical Division was 42,600 in June 1995, a decrease of 1,500 on the figure for June 1994.

(See tables 3–8, pages 2–7.)

Unemployment

Tasmania's trend series figures—

The Tasmanian provisional *trend series* estimate of 21,800 unemployed persons in June 1995 was a decrease of 1,900 on the figure for June 1994 of 23,700. The estimate of the unemployment rate of 9.8% in June 1995 was a decrease compared to the estimate of the unemployment rate of 10.8% in June 1994.

(See tables 3–8, pages 2–7.)

The labour force

Tasmania's trend series figures—

In May 1995 there was an *unadjusted* estimate of 367,200 civilian Tasmanians aged 15 or more. There were an estimated 222,800 persons (based on *trend series* estimates) in the labour force. The estimate of the labour force participation rate in June 1995 was 60.7 %, compared with the figure of 60.0% in June 1994.

For males, the estimate of the participation rate was 71.2%, compared with 71.0% in June 1994. For females, the estimate of the participation rate was 50.5%, compared with 49.0% in June 1994.

(See table 3, page 2.)

Employed wage and salary earners

In September 1994 there were approximately 138,900 employed wage and salary earners in Tasmania. In September 1992 the figure was 144,300 employed wage and salary earners.

In August 1994 the Tasmanian public sector accounted for 31.8% of all employed wage and salary earners. Overall, the category community services had the highest industry representation (28.9%, compared with the equivalent figure of 27.8% recorded in August 1992). The next highest industry grouping

was wholesale trade and retail trade (18.3%, compared with 19.9% in August 1992) and manufacturing (15.8%, compared with 15.0% in August 1992).

In August 1994, women made up 46.3% of employed wage and salary earners. In August 1992, the equivalent figure was 45.8%.
(See table 9, page 8.)

Award rates of pay indexes

The annual movement from May 1994 to May 1995 of weekly award rates of pay indexes for Tasmania rose by 0.8% for full-time adult females and by 1.2% for full-time adult males, for a combined annual increase of 1.1%. For Australia, the figures were 1.1% for females and 0.8% for males, for a combined annual increase of 0.9%.

For full-time adult female employees in Tasmania, the largest industry increases over this 12-month period occurred in the recreation, personal and other services industry (2.8%); and manufacturing industry (2.5%).

For the same period for full-time adult male employees in Tasmania, the largest industry increases occurred in the community services industry (3.7%); and the electricity, gas and water industry (2.0%).

The largest occupation increase over the same period for full-time adult female employees occurred in tradespersons (2.5%); and plant and machine operators, and drivers (2.2%). For full-time adult male employees the largest occupation increases over the period occurred in plant and machine operators, and drivers (3.0%); and managers and administrators (2.1%).

(See table 14, page 10.)

Building materials prices

The price index of materials used in house building in Hobart increased by 0.8% in May 1995. This was the second highest increase for any capital city, running behind Perth, at 0.9%. For the twelve month period ending May, Hobart's index increased by 5.1%, the highest increase of any of the capital cities, and well above the Australian average of 3.1%.

The price of materials used in other than house building increased in Hobart in May by 0.3%, which was the same as the national average. The highest monthly increases were of 0.4%, recorded in Sydney, Brisbane and Adelaide.

For the twelve months ending May 1995, Hobart recorded an increase in this index of 3.5%, which was well above the Australian average of 3.0%. Of the seven capital cities, only Melbourne, at 2.4%, and Adelaide, at 2.8%, recorded increases below the national level.

The main contributors to the index increase in Hobart this month were copper pipes and fittings, ready mixed concrete and structural steel. At the national level, increases in the price of structural steel, glass products and pre-cast concrete products were partly offset by lower prices for copper pipes and fittings.

Price index of Materials Used in House Building, May 1995, ABS Catalogue No. 6408.0, released on 3 July 1995, \$10.00.

Price Index of Materials Used in Other Than House Building, May 1995, ABS Catalogue No. 6407.0, released on 3 July 1995, \$13.00.

Housing finance

The number of secured housing finance commitments entered into in Tasmania continued to decline for the May 1995 trend estimates. The trend estimate of 833 commitments for May 1995 represented a fall of 19.7% on the May 1994 figure of 1,037. The trend estimate has been in continuous decline during this period.

In national terms, the decline in the twelve months ended May 1995 was even more severe, with a 33.4% fall in the trend estimate for number of commitments.

Housing Finance for Owner Occupation, ABS Catalogue No 5609.0, released on 20 July 1995, \$13.00.

Livestock slaughtering

Trend estimate—

The May 1995 Tasmanian trend estimate for the slaughtering of sheep and lambs was 4.3% lower than that recorded in April 1995. The number of pigs slaughtered in the same period increased by 0.6% whilst the number of cattle and calves slaughtered fell by 3.9%.

The trend estimate for slaughtering sheep and lambs was 70,400 in May 1995, 19% below the 86,900 recorded in May 1994. The slaughtering of sheep and lambs has continued to decline since the 103,800 recorded in September 1994.

The trend estimate of 8,000 pigs slaughtered in May 1995 was 1.3% above the 7,900 slaughtered in May 1994.

The cattle and calves slaughtering trend estimate continued its decline from January 1995. The number of cattle and calves slaughtered in May 1995 was 18,900, 16.7% above the 16,200 recorded in May 1994.

(See table 21, page 16.)

Building approvals

There were 251 new dwelling units approved during May 1995 in Tasmania. This was an increase of 26% on the number recorded for April 1995, but a 28% decrease on the number recorded for May 1994 (348).

For the twelve months ended May 1995 there were 3,270 new dwelling units approved, 22% below the 4,201 units recorded for the previous corresponding twelve months.

The latest monthly trend estimate for the number of dwelling units approved showed a slight increase after eighteen consecutive months of decline.

The highest number of dwelling units approved in May 1995 was recorded by the City of Clarence with 31, followed by the City of Launceston with 23, the Municipality of Kingborough with 18 and the municipalities of West Tamar and Meander Valley each with 16.

The value of all building approved, at current prices, in May 1995 was \$37.4 million compared with \$35.4 million in April 1995 and \$42.2 million in May 1994.

The value of new residential building approved, at current prices, in May 1995 was \$20.2 million, compared with \$16.8 million in April 1995 and \$24.6 million in May 1994.

(See table 27, page 19.)

Retail

The trend estimate for turnover of retail and service establishments for May 1995, in Tasmania, was \$236.5 million, an increase of more than 2% on the May 1994 figure of \$231.3 million. Tasmania has recorded moderate to strong growth in the trend estimate over each of the last four months.

The trend estimate of turnover for May 1995, for Australia (\$9,581 million), was nearly 8% higher than for May 1994. The trend estimate of retail turnover increased by a moderate 0.6% for each of the last four months.

The Food Industry group has shown more than 10% growth over the past twelve months, the hospitality and services group nearly 11% growth and the remaining non-food retailing industries combined showed growth of over 4% for the same period.

In original terms, the estimate of retail turnover in May 1995, for Tasmania, was \$229.0 million, over 1% higher than the figure recorded for May 1994.
(See table 35, page 23.)

New motor vehicle registrations

There were 1,357 new motor vehicles (excluding motorcycles) registered in Tasmania during May 1995. This was nearly 66% more than was recorded for April (819) and over 33% more than the figure recorded for May 1994.

It should be noted that April is historically a quiet month for new motor vehicle registrations.
(See table 34, page 23.)

Private new capital expenditure

Total new capital expenditure, in Tasmania, for the March quarter 1995 was \$178 million. This was nearly one and half times the figure recorded for the March quarter 1994. The figure was more than 25% greater than the amount of \$142 million recorded for the December quarter 1994.

New capital expenditure on equipment, plant and machinery, in Tasmania, for the March quarter 1995 was \$133 million, 9% more than was recorded for the previous quarter. The figure for expenditure on buildings and structures increased from \$20 million in the December quarter 1994 to \$45 million in the March quarter 1995.

May	20.6	16.8	102.3	767	4 479

(a) Source: Australian Dairy Corporation. (b) Changing productivity per staff-hour makes these indicators unsatisfactory for long-term comparisons. (c) *Metallurgical refining index* (Base: 1979-80 = 100.0) Output from selected establishments covering the smelting and refining of ferro-alloys, zinc and aluminium. The weighting pattern is based on the establishments' value added as derived from the 1979-80 Manufacturing Census. For multi-product establishments, value added was apportioned to products on the basis of gross receipts from each product. (d) Includes the whole milk equivalent of farm cream intake. (e) Includes butter equivalent of butter oil. (f) Includes spinning, weaving and carpet making. Reported by establishments which manufacture textiles only, or manufacture clothing and textiles in the one plant. (g) Excludes production of directory newsprint and high grade specialty paper.

Production

April	204	146	3 531	4 115
May	203	132	3 505	4 131

(a) Due to changes to the *Banking Act 1959* in December 1989, which removed the distinction between trading and savings banks, figures previously published in this table are no longer comparable with those shown above. (b) Details are the averages of weekly figures for each month. The figures are derived from returns submitted by banks authorised under the *Banking Act* together with similar returns voluntarily submitted by the State banks; they exclude the Reserve Bank. (c) Excludes non-resident loans.

1994	745 508	4 166	128 644	878 318	880 936	56 592	6 592
1994 —							
March	66 848	414	13 054	80 316	85 030	1 064	1 064
1995 —							
January	80 818	318	12 430	93 566	115 126	1 368	1 368
February	78 700	269	11 704	90 673	81 727	1 772	1 772
March	68 790	351	13 087	82 228	86 348	659	659

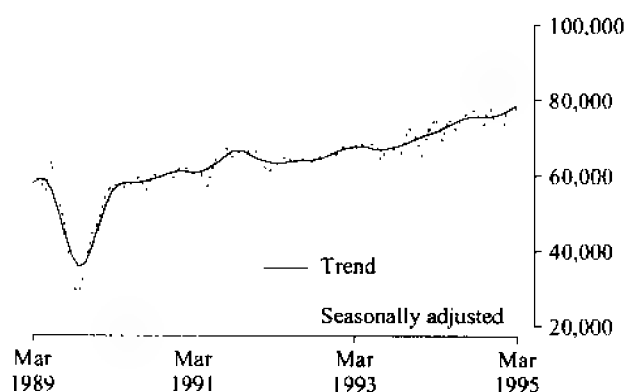

(a) The following persons are not included in these statistics: passengers under three years of age accompanied by an adult; passengers travelling on chartered flights with minor carriers; passengers travelling on private or VIP flights; and passengers from or departing for overseas other than direct flights to New Zealand. (b) The proportion of departing passengers who were visitors was shown to be about 58 per cent in the 1981 Tasmanian Visitor Survey, 55 per cent in the 1984 Tasmanian Visitor Survey, about 53 per cent in the 1986 Tasmanian Visitor Survey, almost 65 per cent in the 1990 Tasmanian Visitor Survey, and just over 58 per cent in the 1993 Tasmanian Visitor Survey.

Table 32. Total passenger arrivals by air and sea into Tasmania

Period	Original	Seasonally adjusted (a)	Trend
1994			
March	80 316	75 487	71 588
1995			
January	93 566	71 017	76 727
February	90 673	85 673	77 576
March	82 228	77 026	78 476

(a) There is an annual recalculation of seasonal adjustment factors to include the most recent year's arrivals. This occurs at the end of each financial year and may cause revisions to previously published seasonally adjusted and trend figures. A full time series of seasonally adjusted and trend series from January 1971 is available on request, telephone (002) 20 5870

Percentage change in number of new motor vehicles (excluding motorcycles) registered twelve months ended May 1995, over the same period previous year	15.6	12.9	7.8	11.2	6.5	12.6	11.8
Agriculture							
Percentage change in the number of livestock slaughtered twelve months ended May 1995 over the same period previous year							
Cattle and calves	2.3	5.7	- 12.0	1.7	- 3.2	7.8	- 2.4
Sheep and lambs	7.6	- 2.2	38.7	5.0	20.4	12.6	- 3.6
Tourism							
Room occupancy rates for hotels, motels etc. with facilities, March quarter 1995 (%)	58.8	55.9	59.4	53.4	59.2	68.2	58.1
Australian National and State Accounts							
Percentage change in GSP (GDP), Constant Price (b) Trend Series							
Dec qtr 1994 to Mar qtr 1995	0.5	0.9	0.3	- 0.1	1.2	1.1	0.5
Mar qtr 1994 to Mar qtr 1995	3.2	4.7	4.6	- 0.8	5.6	2.5	4.0

(a) Australian totals include the ACT and NT.

(b) This is the first quarter for which constant price estimates have been published.

For more information ...

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the *ABS Catalogue of Publications and Products* available at all ABS Offices (see below for contact details).

Information Consultancy Service

Information tailored to special needs of clients can be obtained from the Information Consultancy Service available at ABS Offices (see Information Inquiries below for contact details).

National Dial-a-Statistic Line

0055 86 400

(Steadycom P/L: premium rate 25c/21.4 secs.)

This number gives 24-hour access, 365 days a year, for a range of statistics.

Electronic Data Services

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about these electronic data services, contact any ABS Office (see below).

Bookshops and Subscriptions

There is a large number of ABS publications available from ABS bookshops (see below Bookshop Sales for contact details). The ABS also provides a subscription service through which nominated publications are supplied by mail on a regular basis (telephone Subscription Service toll free on 008 02 0608 Australia wide).
